

“COMPARE BEFORE YOU DECIDE”

REFINISHING CHECKLIST

Beautiful Finishes, Inc.

The Competition

<input checked="" type="checkbox"/> 30 Years Experience We can provide you with multi-year references.	<input type="checkbox"/> How many Years In Business? Can they back up their claims in writing?
<input checked="" type="checkbox"/> Full Written Guarantee 100% Guarantee backed by 30 successful years	<input type="checkbox"/> Only a Warranty? Is It Pro-rated? How long will it last & how much will you pay for failures?
<input checked="" type="checkbox"/> Company Technicians Quality Control, Performance Guaranteed & 100% Fully Insured	<input type="checkbox"/> Using Sub-Contractors? Less control over process & materials...Proof of insurance?
<input checked="" type="checkbox"/> Thermofuse 5000™ Most durable coating on market with only 1 DAY downtime	<input type="checkbox"/> 3-7 Days or “Mega-Cure” Damaged? Why lose downtime or suffer premature coating failures?
<input checked="" type="checkbox"/> Acrylic Urethane Type 5 Tested & Approved by Sears and City of Chicago	<input type="checkbox"/> Epoxy or Lower Grade Coatings? Epoxies turn yellow, cheaper coatings do not last.
<input checked="" type="checkbox"/> Etch, Prime, Topcoat Process Time proven process with over 30,000,000 applications worldwide	<input type="checkbox"/> Skipping the Etch & Primer Steps? Bonding agents are substitutes... don't take shortcuts!
<input checked="" type="checkbox"/> Built-in Permanent Anti-Slip Surfaces Ensure your safety with 10 Times the National Safety Standard	<input type="checkbox"/> Anti-Slip Surfaces? Is it effective? Does it look “Factory New”?
<input checked="" type="checkbox"/> Lead-Free Coatings Our process is lead-free and completely encapsulates existing lead leaching problems.	<input type="checkbox"/> Lead-Free Coatings? Are your family and guests safe from lead poisoning?
